The amendment to the specification filed on July 28, 2006, has *not* been entered because the Request for Continued Examination of February 9, 2007, does not provide any request for its entry.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 12-17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Schachar, US 5,354,331. In embodiments having a *plurality* of parts “assembled prior to use” or “installed separately to form a complete band” (column 7, lines 1-3), at least one part, viewed as the “body” (instant claim 1, line 2), possesses ends spaced apart such that no portion of the body overlaps any other portion of the body (although said body *does* overlap *other* parts in the plurality). The transitional term “comprising” (instant claim 1, line 2) is “inclusive or open-ended and does not exclude additional, unrecited elements” (MPEP 2111.03), such as the other parts in the plurality. The body has a planform that functions (in cooperation with the other parts) to expand the contacted sclera for increasing the effective working distance of the ciliary muscle of the eye (column 7, lines 36-42).

Claims 8-11 and 18-24 are allowed.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action

Art Unit: 3738

after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
